# ABOUT THE CITY

Wrocław is the economic, cultural and intellectual capital of Lower Silesia and the 4th biggest city in Poland. It boasts fascinating architecture and a lively metropolitan cultural scene. Wrocław is situated northwards from the Sudety Mountains. It is close to both Germany and the Czech Republic. Odra river and its many tributaries and canals cut right through it creating 12 islands and 111 bridges.

Wrocław is one of the largest university centers in the country. The city's intellectual life is focused around 13 academic schools such as the University of Wrocław, Wrocław University of Science and Technology, and Wrocław University of Economics.

The very heart of the city attracts visitors with its Old Town Promenade (running along the former city moat) and Botanical Garden (in Ostrów Tumski). Visitors can also admire the leafy waterfront from cruisers and gondolas, which are one of Wrocław's many tourist attractions. Another key attraction is the fantastic multimedia fountain found in Szczytnicki Park.

Wrocław is also a business-friendly city. Wrocław Airport is constantly expanding its network of connections while improving the quality of its services. Direct railway connections with cities in the Czech Republic, Germany and Ukraine are also available. The city's favourable location at the crossroads of European transport routes and its attractive infrastructure, which has lately been expanded with the Regional Business Tourism Centre, attract academic and business conferences and congresses.
